WebsiteMaintenance & SecurityPackage

Keep Your Website Running Smoothly

Your website is a vital part of your business. Our comprehensive maintenance package ensures it stays secure, up-to-date, and performing at its best. Here's what you get:

Ongoing Maintenance:
- Regular updates to your website's core files, plugins, and themes
- Performance optimization and speed improvements
- Content updates and minor design tweaks as needed

Security & Backup Protection:
- 24/7 security monitoring and threat detection
- Regular website backups
- Quick restoration if issues arise
- Protection against malware and hacking attempts

Business Growth Support:
- Professional business consultation
- Market research and competitor analysis
- Strategic recommendations for your online presence

Performance Tracking:
- Google Analytics implementation and monitoring
- Monthly traffic and performance reports
- Insights to help grow your business

Investment: Only $100/month during the initial website development contract.

Note: If activated after the website is finalized and no active contract is in place, a $25 reactivation fee will apply to resume maintenance, in addition to the $100 a month. The cost per change(s) requested outside of our maintenance package will be determined through consultation with a base cost of $50.

Peace of Mind without proper maintenance, websites can face security breaches, slow performance, or complete failure. Website recovery outside our maintenance plan costs $200, plus additional fees for lost domain recovery.

Contact us today to secure your website's future.
